

Dear Hiring Manager,

I am excited to apply for the **EdTech Platform Developer Intern** position at Nextedtech School. As a Full-Stack Software Developer with a background in Software Engineering, I enjoy building applications that solve real problems, and the opportunity to contribute to a platform that helps people learn is especially meaningful to me.

Over the past few years, I have worked on web applications, APIs, and database-driven systems while continuously expanding my skills in modern web development. I enjoy turning ideas into practical solutions, writing clean and maintainable code, and learning new technologies along the way. Whether working independently or as part of a team, I always strive to deliver quality work and keep improving with every project.

What attracted me to Nextedtech is your focus on using technology to make education more accessible and engaging. I would value the opportunity to learn from your team, contribute to the development of your platform, and grow as a software engineer while making a positive impact on learners.

Thank you for taking the time to consider my application. I look forward to the opportunity to discuss how I can contribute to your team.

Kind regards,

Brian Odiyo Ahuga
